-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1761

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-3, 5, 17-22, 24, 26 and 44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the original disclosure for: a colorimeter L-value of "approximately 50" or for the concentration claimed in claim 44. The 49.2 value disclosed on page 20 of applicant's spec. would support a colorimeter L-value of "approximately 49" but not "50".

Corrections are required.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 44 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent basis in claim 1 for "said ...chips" (claim 44, lines 1-2). Also, claim 44 is indefinite in reciting "would otherwise exhibit", which should be changed to "has" and in reciting "if measured alone", which should be cancelled. Corrections are required without new matter.

Art Unit: 1761

5. Claims 1 and 17 are objected to because of the following informalities: In claim 1, line 6 and claim 17, line 11, "were" should be changed to "was". Appropriate correction is required.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1, 5 and 44 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Salmon Patties" in view of Ellis et al (4,806,377) as set forth on pages 5-6 of the January 26, 2005 Office action and in paragraph no. 5, Paper No. 101906.

8. Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Salmon Patties" in view of Ellis et al as applied to claims 1, 5 and 44 above, and further in view of "A Dinner Experiment" and "Dried Food Products" as set forth on page 6 of said Office action.

9. Claims 17-22, 24 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Food Product Design" in view of "Salmon Patties" and Ellis et al as set forth on pages 7-8 of said Office action and in the last sentence of paragraph no. 5, Paper No. 101906.

Art Unit: 1761

10. Claim 26 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ellis et al in view of "Salmon Patties" as set forth on pages 2-3 of the September 23, 2005 Office action.

11. Applicant's arguments filed January 23, 2007 have been fully considered but they are not persuasive. Applicant's contention, that the claimed concentration is not merely the product of routine experimentation, is a simple conclusion unsupported by any factual evidence of record. There is simply no factual evidence to indicate that said concentration is critical or achieves unexpected results. Applicant's comment with regard to the flavor intensity is not commensurate in scope with any of applicant's claims, which fail to recite a flavor intensity limitation.

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
